

Modernize Your Metasys System, Maximize Performance

Metasys Engine Trade-In Program

The growing portfolio of next-generation Metasys network engines offers valuable new system performance and cybersecurity capabilities. It's time to upgrade your engines and get ahead of aging technology. And it's easy to get started with this **EXCLUSIVE, LIMITED-TIME OFFER.**

The power behind **your mission**

Why You Should Modernize Now

Metasys engines are the heart of your Metasys system, supervising equipment controllers and carrying out vital security and networking functions. Now in its 30th year, Metasys has continually innovated to enhance performance and ease. Upgrading helps you capture those benefits.

To proactively help you prepare for upcoming end-of-support phase network engines, we've created this exclusive Engine Trade-In program. It's a cost-effective path to upgrade your engines to the newest, high-power models.

"GREY-TO-BLACK" ENGINE REPLACEMENT GUIDE

Existing Network Engine*		Next-Generation Engine Replacement
NCE25 & NIE29 ¹	➔	SNC25150-0, SNC16120-0
NAE35 & NIE39 ¹	➔	SNE10500-0
NAE45 & NIE49 ¹	➔	SNE11000-0
NAE55-2	➔	SNE22000-0

Program Details:

Up to 50% off

Engine replacement: **40% off** next-generation (M4) SNE Series Network Engines or SNC Series Network Controllers & Panels

Bonus: **additional 10% off** the Software Modernization Promotion and New ADS/X & OAS Promotion**

Introduced with Metasys 10.1 in 2019, the next-generation Metasys SNE Series Network Engines and Metasys SNC Series Network Control Engines offer significant enhancements:

- Smaller, sleeker design to reduce installation costs
- High-capacity memory, fast processing and USB ports to support future upgrades and long lifecycles
- Diagnostic LEDs and removable terminal blocks to simplify service
- The Linux operating system and a secure boot feature, which helps prevent malicious software from loading during startup, to help strengthen cybersecurity practices

Both series have a multi-year expansion plan, with additional models and feature enhancements.

Whether you're just beginning your journey to Metasys modernization or you need a simple engine replacement, Johnson Controls is committed to guiding you with a strategy right for your installation and budget.

Promotion valid through September 30, 2020. Contact your Johnson Controls representative today for more information.

Terms & Conditions

1. Promotion valid when replacing existing legacy or outdated Johnson Controls hardware only.
2. Valid for standard panels only.
3. Valid for existing Metasys customers only. New subscriptions must be placed at time of order if combined with [Software Modernization](#) or [New ADS/X & OAS promotion](#).
4. Contact your Johnson Controls representative or the [Johnson Controls Repair Center](#) to return engines for proper disposal or reconditioning.
5. All Engine Trade In program orders must be shipped by 9-30-2020.

*The Metasys release that the existing Metasys "Gen3" engines are able to upgrade to will vary by engine model. Contact your Johnson Controls representative for more details.

**Requires engine replacement.
