

Enhance Productivity & Cybersecurity with the Latest Metasys Software

Metasys Software Modernization Promotion

Avoid the inefficiencies of older building automation software by making sure your Metasys software is up to date. Upgrading also eases integration with new technologies and components, and helps reduce the risk of security breaches. Our limited-time Software Modernization Promotion makes upgrading your Metasys software easier than ever.

The power behind **your mission**

Modernize Software, Gain Key Benefit

Updating and upgrading software immediately is #1 on the U.S. National Security Agency's top 10 cybersecurity mitigation strategies¹.

The latest Metasys software helps you protect data and work smarter:

- Intuitive navigation by building space clarifies equipment relationships for faster troubleshooting and less time on task
- Alarm Manager helps quickly identify and prioritize alarms, for faster troubleshooting
- Photo-realistic graphics offer cleaner visualization, right from your mobile device
 - A built-in graphics manager eliminates the need for separate tools to create or edit graphics
- Security enhancements use IT best practices—including password management and secure, encrypted communications—to help prevent unauthorized access
- Key user account and system information in the award-winning Cyber Health Dashboard help system administrators understand and address potential cybersecurity issues

A software subscription keeps your system up to date throughout the term of the subscription by providing the latest revisions of Metasys software.

Program Details:

Existing sites at Metasys revision 7.0 or newer

- 20% off Metasys Upgrade or Migration software
- 30% off 1-year Metasys software subscription
- 50% off 3-year Metasys software subscription

Existing sites older than Metasys revision 7.0

- 40% off Metasys Upgrade or Migration software
