

## Johnson Controls is Powering the COVID-19 Crisis Response

# Solutions and Capabilities for Transportation

Johnson Controls is committed to serving the transportation industry during the COVID-19 crisis. We have the global experience, national workforce and expertise to assist every corner of the industry including airports, rail transport and cruise ships. Despite these difficult times, Johnson Controls has the solutions to help the transportation industry emerge stronger from the COVID-19 crisis.

We are always available to support the transportation industries' critical systems:

- Johnson Controls has a presence in more than 200 airports in North America
- We have 120 branch locations in North America supported by 25,000 employees
- Recognized by federal, state and local governments as a provider of essential products, services and personnel
- Johnson Controls has the proven ability to be on the front lines quickly and efficiently

Johnson Controls can rapidly mobilize technical resources – including engineers, project managers, installers and service technicians, and more – to help the transportation industry meet their needs during the crisis and ensure customers are satisfied when demands return to normal.

With domestic passenger travel down 90 percent in North America, now is the time to address critical and often delayed upgrades of infrastructure, HVAC and security equipment

We know the transportation industry must use relief funds for essential services. Johnson Controls can help you preserve valuable cash and improve your facility with unique financing opportunities including:

- Buildings- or Everything-as-a-Service
- Performance Contracting
- Deferred Payment Options

The power behind **your mission**

Johnson Controls can help the transportation industry confront COVID-19 challenges by anticipating changes in how customers approach transportation after the crisis, making them feel safer and more comfortable. We can:

- Streamline employee and customer entry for COVID-19 screening
- Re-purpose standard office or other non-operational rooms to isolation rooms to help mitigate the spread of COVID-19

# COVID-19 Transportation Crisis Response

Some of the ways Johnson Controls can support your transportation needs:

<b>Increase building management and energy efficiency</b>	<ul style="list-style-type: none"><li>• Upgrades in metering, commercial and refrigeration controls</li><li>• Installation of UV lighting to help kill bacteria</li><li>• Network energy management</li><li>• Rooftop evaporators, cooling towers</li></ul>	<ul style="list-style-type: none"><li>• Installation of energy efficiency kiosks</li><li>• Multiple air filtration products for any application</li><li>• On-time delivery and integration of the priority systems</li></ul>
<b>Maximize security for staff, assets and passengers</b>	<ul style="list-style-type: none"><li>• Access controls and video surveillance in the Cloud to enable remote monitoring</li><li>• Building systems installation for temporary external screening and customer boarding structures</li><li>• Cloud-based visitor management for issuing touchless credentials</li><li>• Panic buttons and badges for staff</li></ul>	<ul style="list-style-type: none"><li>• Cordless badges</li><li>• Remote Services can diagnose and resolve many system issues quickly over the phone</li><li>• Assurance Services can monitor the performance and compliance of your physical and cyber security assets to proactively detect problems, and resolve them</li></ul>
<b>Enhance communication technologies for continuity</b>	<ul style="list-style-type: none"><li>• HVAC systems programmed to reduce energy use and ease the strain on aging infrastructure, especially during unoccupied periods</li><li>• Remote monitoring of systems allowing for more efficient operations at a time when preserving resources is critical</li></ul>	<ul style="list-style-type: none"><li>• Design passenger help points and set up Passenger Information App</li><li>• Improve operational intelligence, wireless networks and radio systems</li></ul>

Backed by our global Centers of Excellence, we can immediately bring world-class expertise to your airport or transportation facility.

Our experts will listen to your transportation needs and quickly respond with solutions, services, and expertise to power your mission.
