

KNOW YOUR METASYS® SYSTEM

INCREASE EASE AND EFFICIENCY WITH WIDE
RANGE OF COURSES

Whether you or your team is new to Metasys® building automation or ready to develop advanced capabilities, find the courses you need through the Johnson Controls Training Institute. Students who successfully complete a course earn continuing education units (CEUs).

TRAINING INSTITUTE COURSES (SCHEDULED)

Regularly scheduled courses with classroom and lab components are held at our state-of-the-art facilities across the U.S. Participants use an iPad® to take notes and highlight class material, and take home those notes and materials on a USB drive.

INSTRUCTOR-LED DISTANCE LEARNING

Learn in the convenience of your home or work location with instructor-led distance learning courses, or learning packages with self-study workbooks. This flexible, cost-efficient approach can be used to prepare for a course, refresh skills, or provide an effective alternative if attendance at a typical classroom course is impractical.

ONSITE LEARNING PROGRAMS OR COURSES OFFERED BY REQUEST

Johnson Controls Training Institute can bring our instructors and equipment to the location of your choice. Onsite courses can be the most efficient and cost-effective way to train as few as eight employees. We also offer select, highly targeted courses upon request, at your location or ours. Ask for details.

WHERE TO BEGIN?

If your team is new to the Metasys building automation system, consider one of our two suggested starter courses:

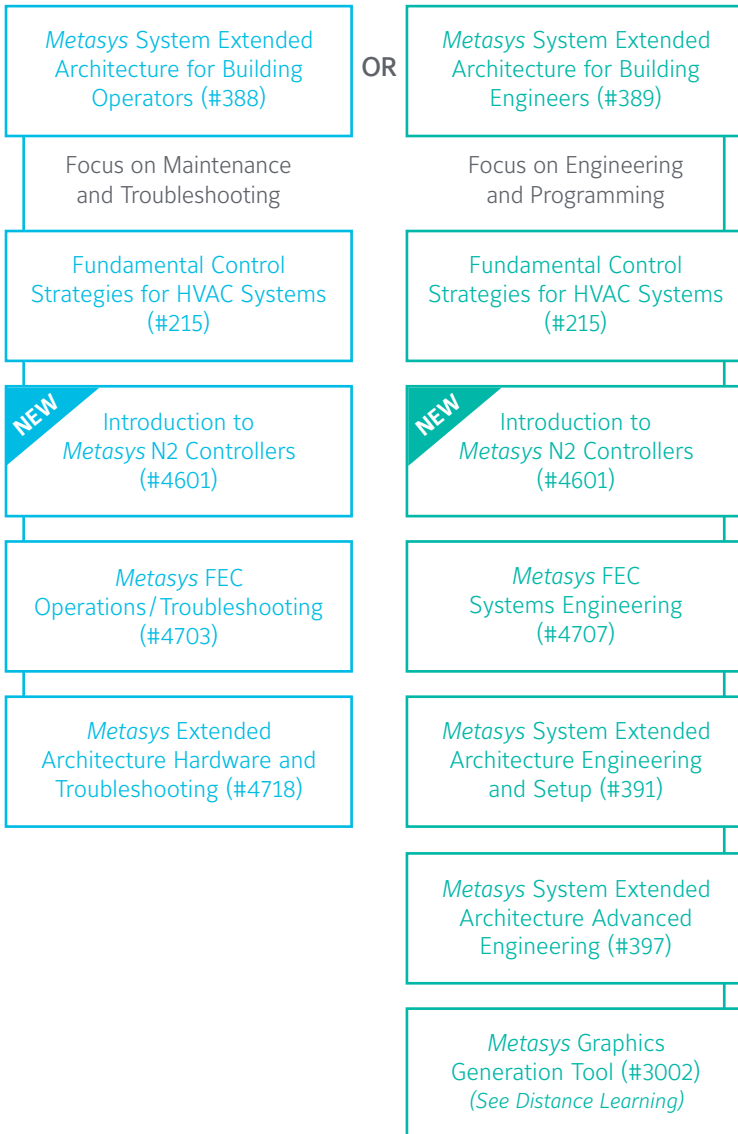

- Course #389, *Metasys System Extended Architecture for Building Engineers*
- Course #388, *Metasys System Extended Architecture for Building Operators*

Course topics range from basic navigation to reviewing control strategies.

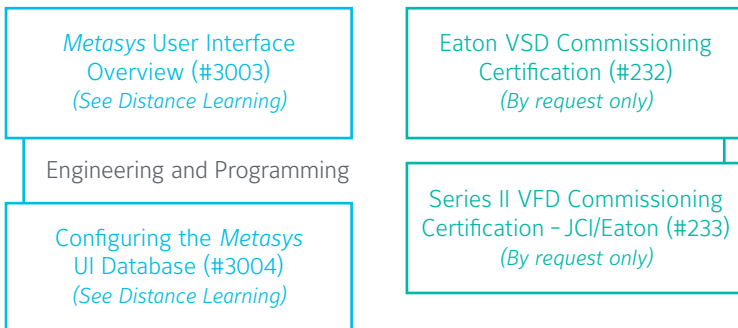

See more in the course catalog at johnsoncontrols.com/institute.

TYPICAL SEQUENCE OF COURSES FOR METASYS SYSTEMS

NOTE: Your facility may utilize ASC controllers, DX, FEC controllers, or a combination of any of these products. Make certain to select the appropriate courses based on your facility.

FLEXIBLE PAYMENT OPTIONS

Save on course fees by enrolling early. Or consider flexible-use voucher packs, valid for a broad range of courses for up to two years.

SATISFACTION GUARANTEED

Our goal is to make it easier for students to make the most of industry-leading Metasys features. If, by the midpoint of a course, you are not satisfied with what you're learning, the Institute will refund your tuition fee in full, or give you credit toward another course.
